FORWARD

The Senior Class has come to the end of its pleasant journey together. We rejoice that we have attained the goal for which we were striving, and regret that we are leaving one another.

To Monsignor Travers we are grateful for giving us the privilege of attending St. Mary's. We also owe sincere gratitude to the Sisters of the Holy Cross, and last, but not least, we thank our parents for giving us the opportunity of obtaining a Christian education. Now with strong courage and understanding, we begin our future life in the world which lies ahead.

SISTER M. MIGUEL

Sister M. Miguel, our friend, teacher, and counselor has spent fifty-one years in the service of God. In that length of time, she has affected the lives of many people and has endeared herself to her friends. Under the guidance of her holy hand, the

pupils of St. Mary's have advanced in sanctity.

To Sister Miguel, beloved teacher of three generations of Anderson children, whose justice has won the admiration and whose friendship has held the love of forty-seven graduating classes, the class of 1950 dedicates THE GAEL.

OUR BISHOP

The students, faculty, alumni, and all having any association with the Diocese of Lafayette are proud of the fact that they have Bishop Bennett to guide their diocese.

His Excellency, the Most Reverend John G. Bennett, is the first bishop

of the Diocese of Lafayette, which was formed in 1945.

The Most Reverend John G. Bennett is close to the hearts of all the students in his diocese. Through his exemplary advice and teaching, we have learned the true way of life which is the way of Christ.

To you, Bishop Bennett, we owe our gratitude for instructing us in the path of Christ.

Administration

In the following pages we find the good Sisters of the Holy Cross teaching their students with the same Christian spirit as Christ when teaching His Apostles.

SISTER MARIE JEANNE, Principal.

English and Social Studies

FRENCH CLASS

The French Class conducted by Sister Celestyn has studied the fundamental principles of the French language, vocabulary, and general grammar.

BIOLOGY

Students realize this course initiates them into a vast field of science with all its wonders. So many enthusiastic young scientists are "coming up" learning about the interesting little creatures in the world about them.

SISTER M. CLEMENT JOSEPH,
Superior.

Religion and Mathematics.

SISTER M. LUCILLE,
Music

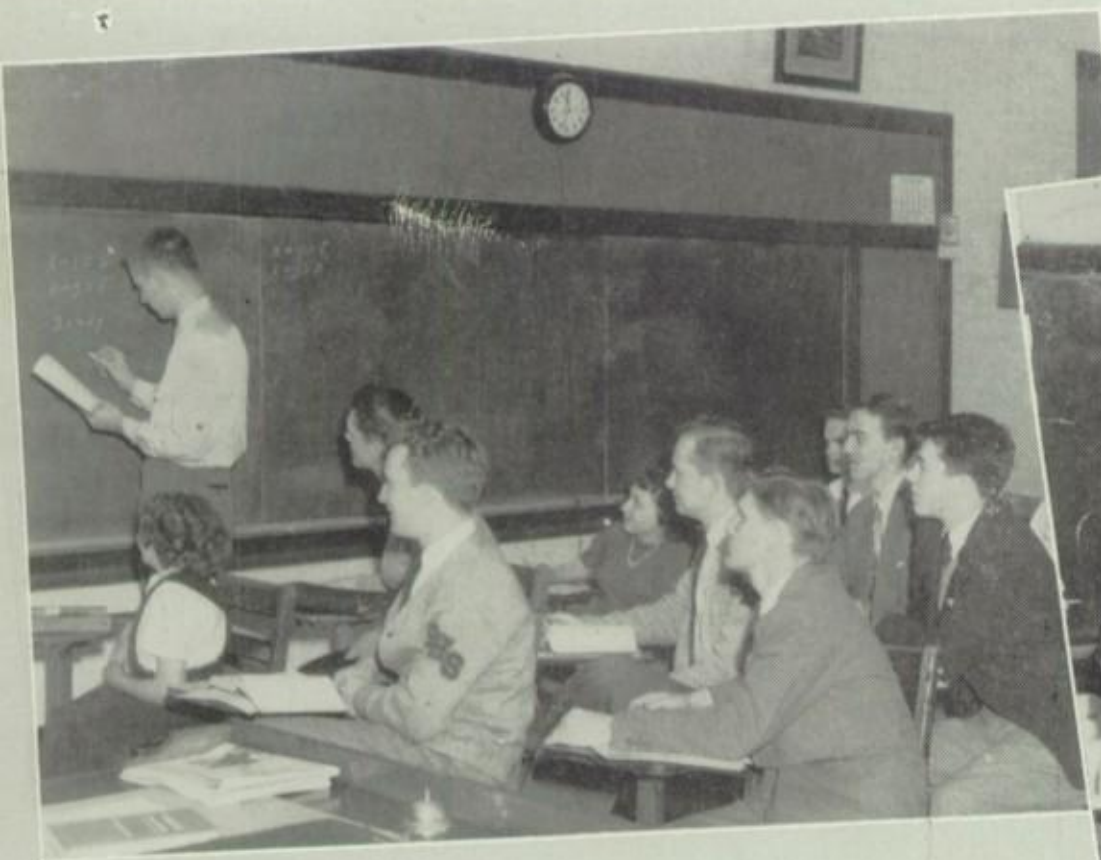

SENIOR ALGEBRA

Of all the subjects offered in the present High School curriculum, mathematics is one which develops a keen sense of reasoning power. It will teach pupils to say what they wish in a precise accurate way.

ENGLISH

Simple, compound, or complex sentences prove no stumbling blocks to English students.

SISTER M. CELESTYN

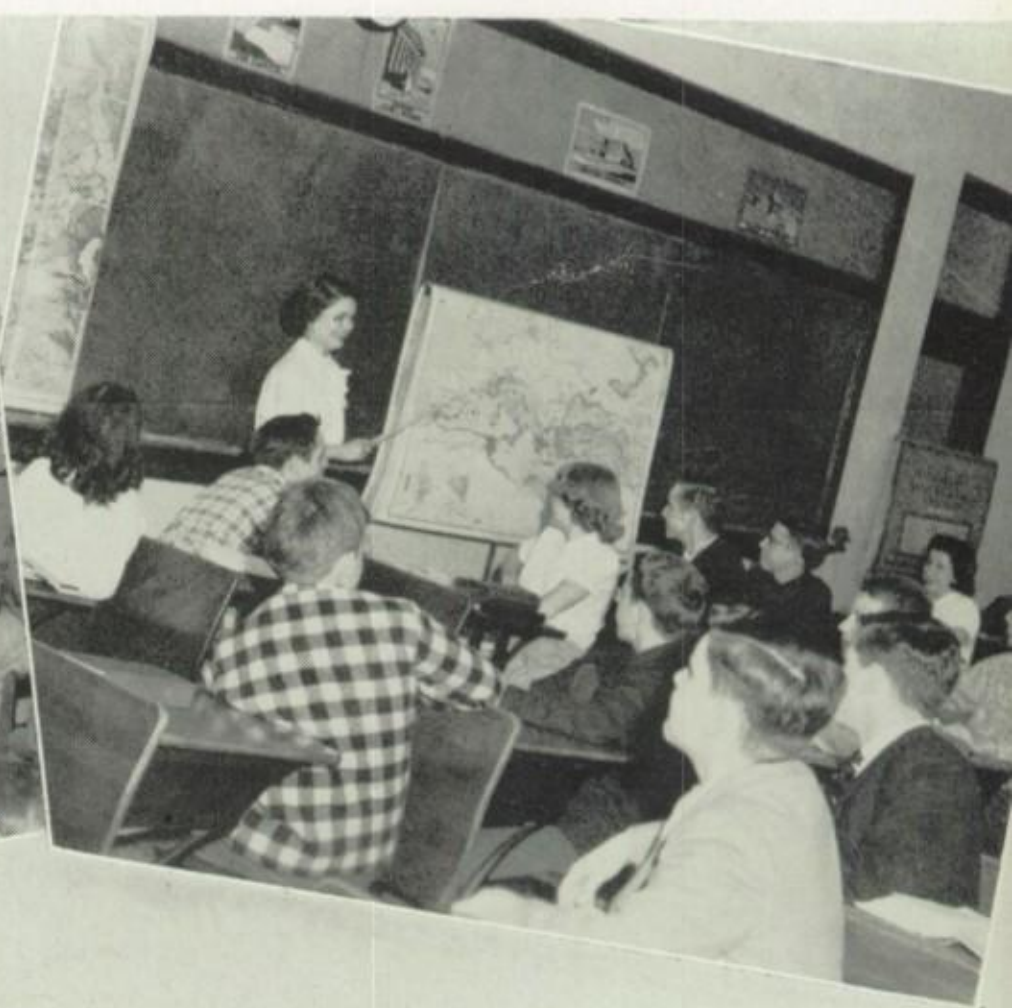

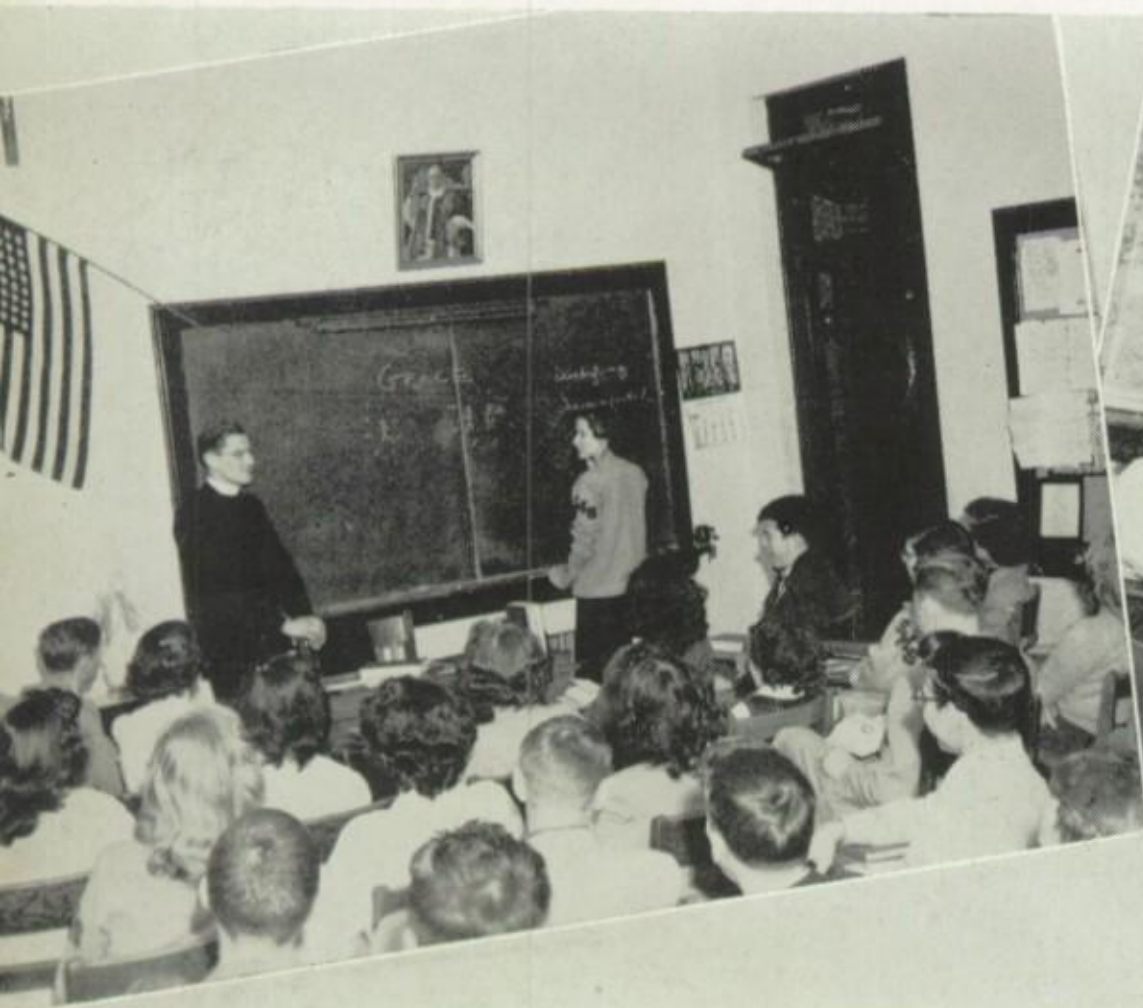

Librarian and French

SENIOR RELIGION

To study about God is to know Him, to love Him, and to serve Him. The complete four years of religious learning turn the minds of the students toward the higher standards of Christian living, and guide their footsteps along the Way of Life.

HISTORY

Present day history is quite complex, but not to St. Mary's students who study past and present world conditions.

SISTER M. FRANCELLO

Religion and Science

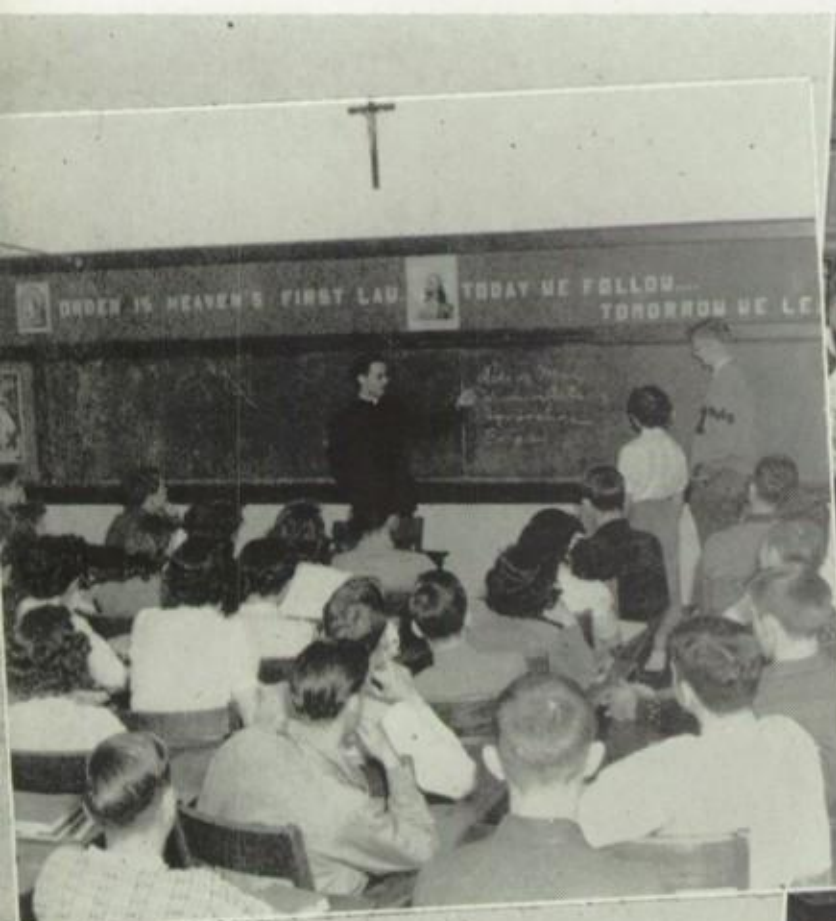

JUNIOR RELIGION

Religion is definitely the most important class taught at St. Mary's.

To study about God is to know Him;
to know Him is to love Him.

GUIDANCE

Every intelligent choice of a job is based on the knowledge of two things, the work to be done and the person who is to do the work. There is no such thing as the right career or the wrong career. Every honest occupation may be the best one for some people, the worst one for others.

SISTER M. JOAN GRANDE
Junior High

SISTER M. FRANCES PAULA
Social Studies and Latin

SISTER M. DOMINIC
English and Social Studies

MATHEMATICS

The science of mathematics is based upon the theories and discoveries of many people over thousands of years. By long, tedious hours of meditation and reasoning, they finally reached conclusions which form our axioms and postulates.

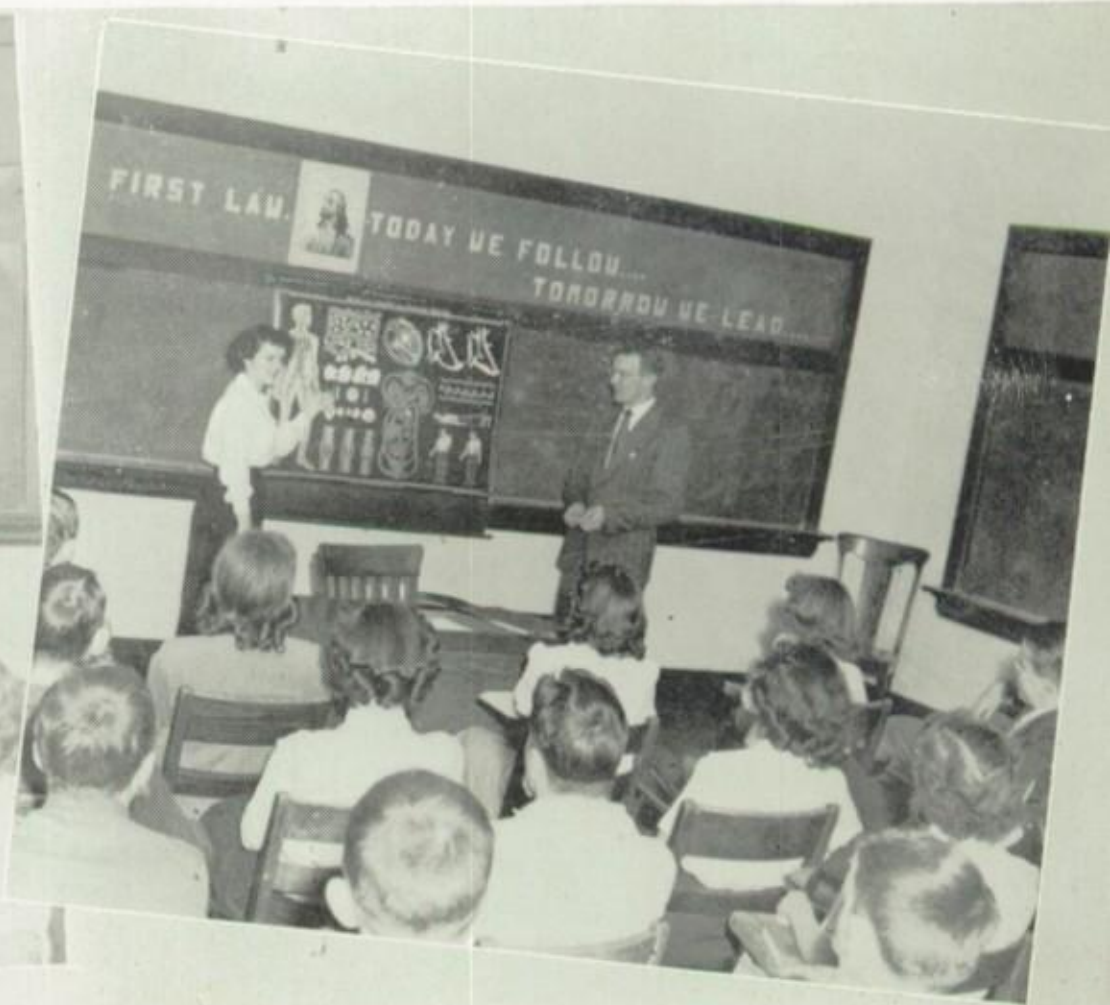

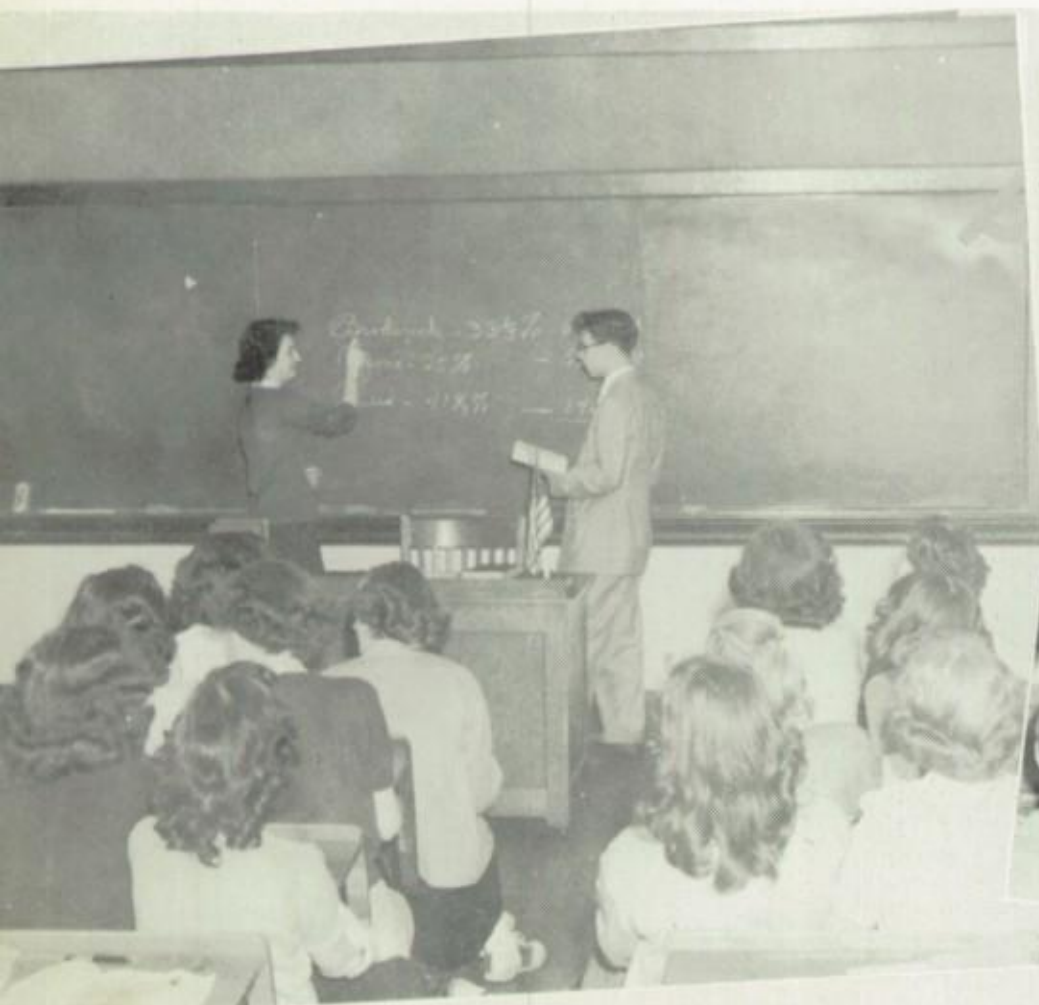

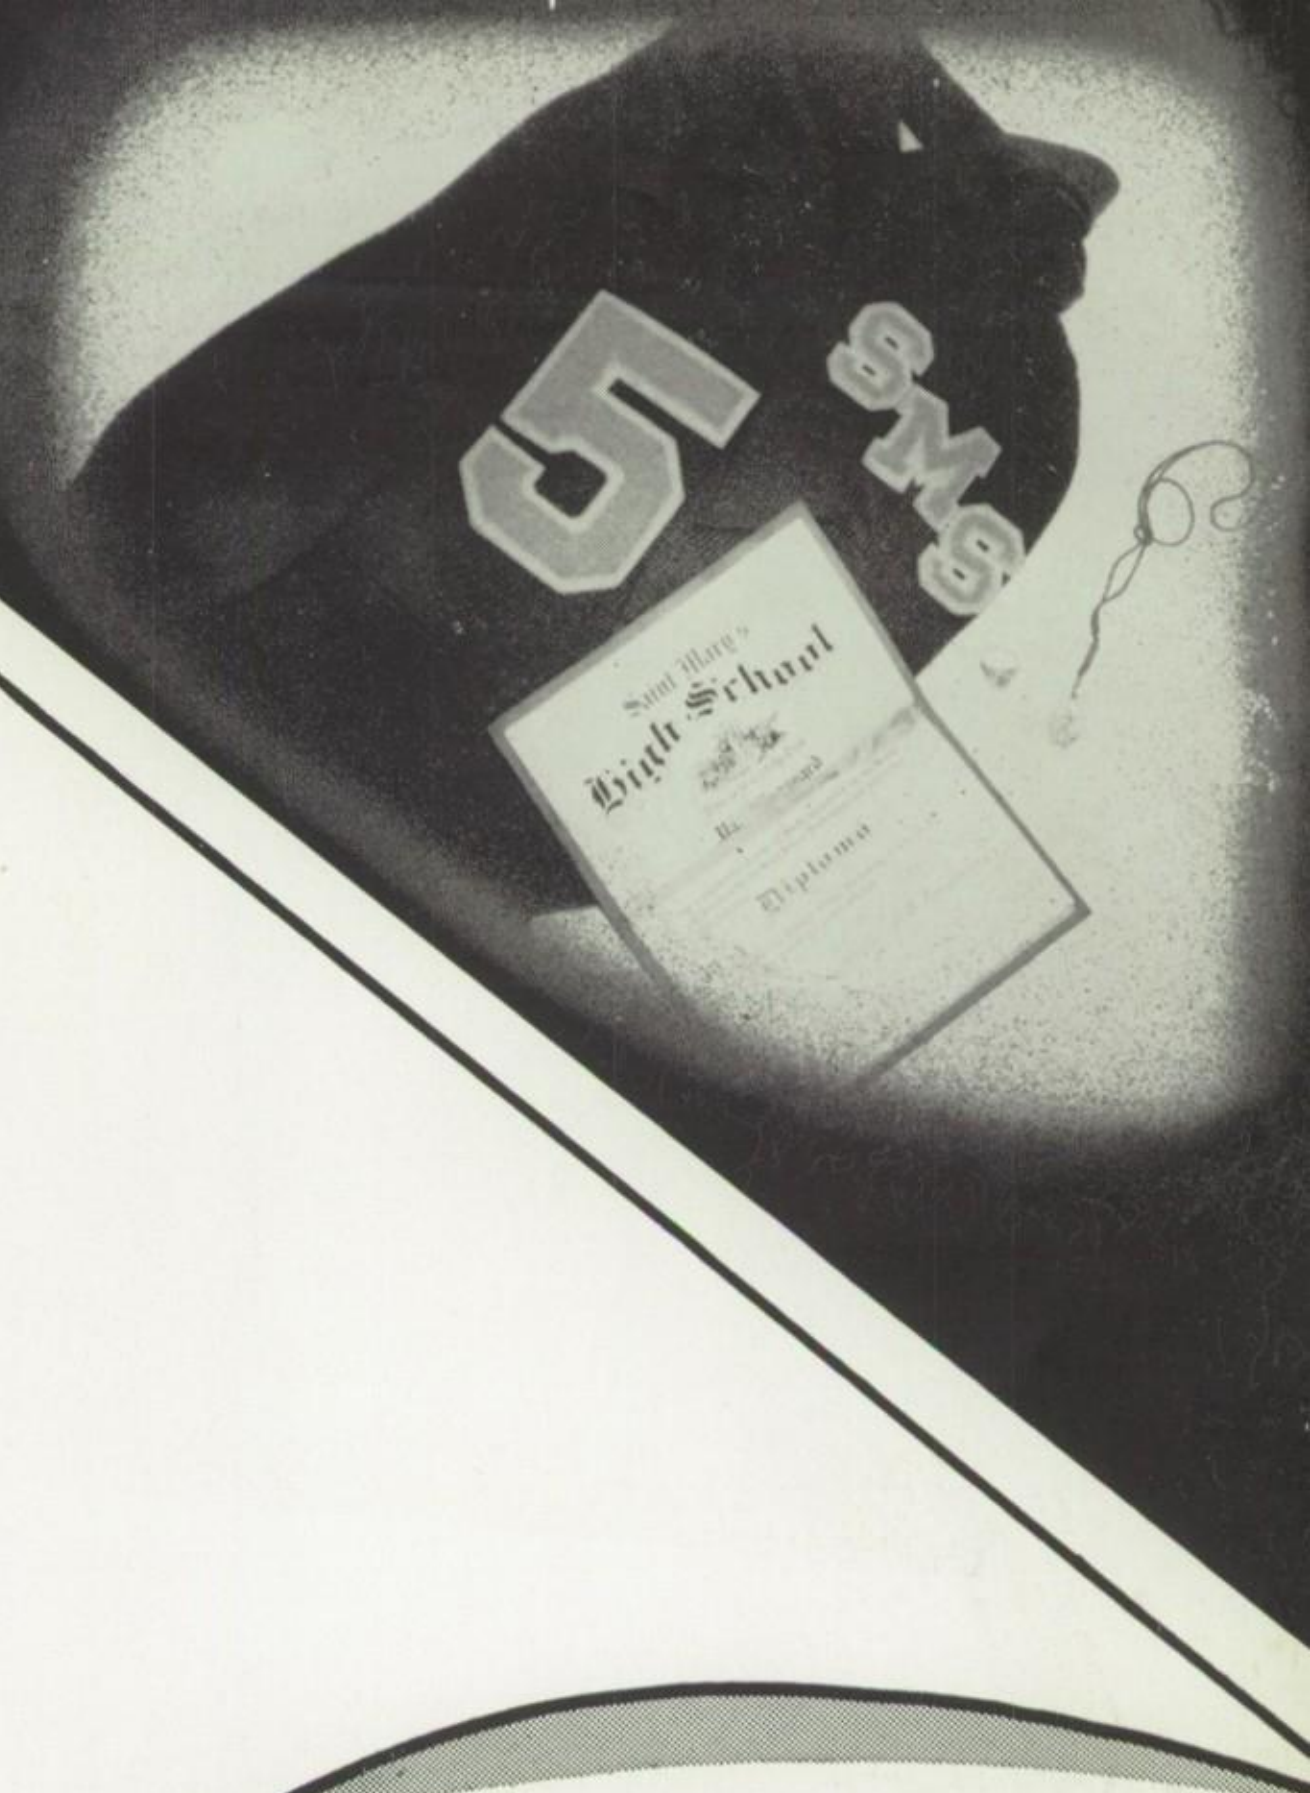

MR. MICHAEL SOKOL

HEALTH AND SAFETY

"Safety First" is a slogan and a practice that should be heeded by everyone. The juniors are studying diligently about traffic rules as well as rules of safety about the home.

Through the study of safety, students are enabled to develop an intellectual outlook for the well-being of both driver and pedestrian.

Classes

Now we find in the next pages the students who attend our Alma Mater.

Senior History

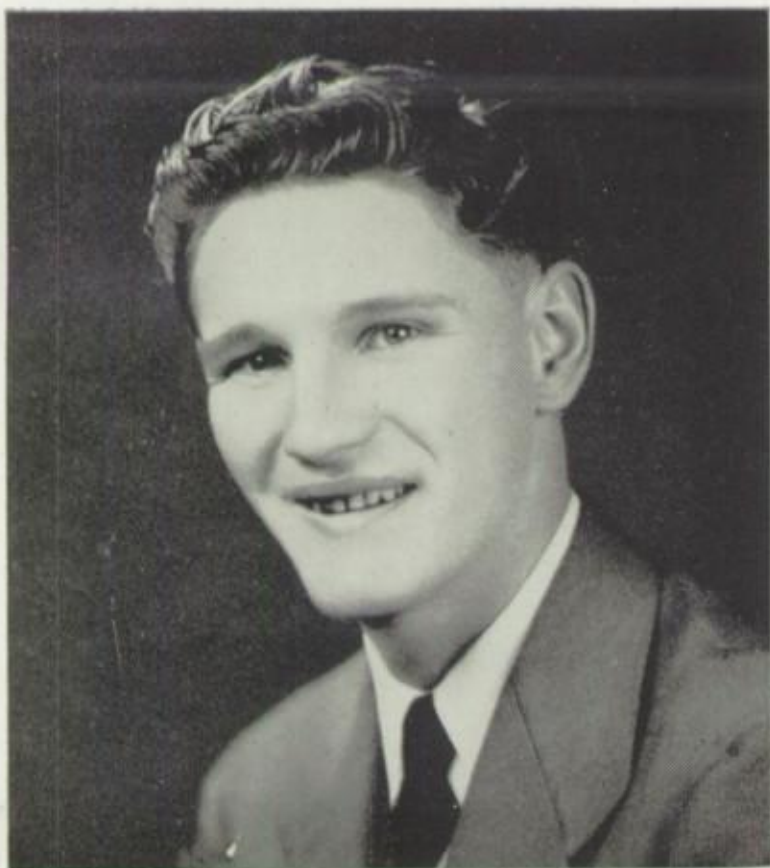

Twelve years ago in 1938 the ambitious Seniors of today walked into their first year of school. During the twelve years we have spent at St. Mary's, there is not one who can say that he hasn't enjoyed every year of it.

We have shared together joy as well as sorrow. We have played together, laughed together and maybe even cried together.

As we prepare for our future life, we know that we shall not all have the priests and sisters to help us as we had in the past. Consequently, we must face life alone, unafraid of the world, for we realize that Our Blessed Lord will guide us.

And now, attired in traditional cap and gown, we march from our Alma Mater, and our dear friends. We walk away from all this, but in our minds and hearts, we feel that we shall never walk away from beautiful memories.

C. Y. O.

The C. Y. O. under the direction of Father Fenton has planned activities and dances this year for the enjoyment of the students. We wish Father continued success with the C. Y. O. in his future years at St. Mary's.

CAMERA CLUB

Shown are members of the Camera Club. This club has been associated with St. Mary's for the past three years, and is composed of members of the Senior Class.

Biology

The quotation from the Book of Genesis gives us a beautiful explanation of the origin of matter. . . .

Here the perfections of God are observed in the tiniest living creatures.

PHYSICS

The structure of the physical world truly gives glory to God, but the perfection with which it works year after year pays greater tribute to the Eternal Wisdom.

CHEMISTRY

The theory of modern science fascinates us as we delve into the study of chemistry.

Sister Mary Francella, sponsor of the club, is doing great work in the progress of the Bi-Phy-Chem.

LIFER'S CLUB

Grouped together are the seniors who are members of the Lifer's Club. These students have spent their twelve years of school together at St. Mary's.

This year seventeen of the thirty-three members of our class are members of this club.

Instead of being classmates, we feel more like brothers and sisters.

Through our close relationship at St. Mary's, we students have enjoyed the companionship of one another, and regret leaving our Alma Mater.

HOOSIER BOYS' STATE and HOOSIER GIRLS' STATE

The purpose of Hoosier Boys' and Hoosier Girls' State is to acquaint high school students with the interesting work of our government.

Those who attended this year are: Joe Rector, Anna Marie Spoo, Robert King Smith.

FATHER MOREAU DAY

The Senior class presented the annual program for Father Moreau Day in March. This program was in honor of Father Moreau, the beloved founder of Holy Cross.

Left to Right: Marier Hulis, Don Peters, Marilyn Beck, Francis Oleksy, Anna Marie Spoo, Jim Gross, King Smith, Janet O'Donnell, Jerry Harber, Leonard Oshier.

This year's presentation—"Home Sweet Homicide"—taken from the pen of Craig Rice, was an exciting comedy which centered around a mysterious shot heard in the Carstairs patio.

ROBERT KING SMITH

Valedictorian

We admire the example that our valedictorian, Robert King Smith, has set for us.

King attended Boys' State and also served as President of the Junior Class.

King plans to attend Saint Xavier University, Cincinnati, Ohio, where he will major in medicine.

BARBARA MUDD

Salutatorian

Barbara Mudd, Salutatorian, has ranked high in scholastic honors during the past four years.

Barbara served as Library assistant and Literary editor of the Marian.

Barbara plans to enter Saint Mary's College, Notre Dame, Indiana where she will major in Library Science.

RETREAT

Father Howard Ralenkotter C.P. conducted the annual Retreat at St. Mary's this year. The retreat was a great help to all the students and guided them in the straight road of life, which is the path that leads to eternal happiness.

YOURS TO GIVE

Today is a very significant day. It illustrates something important about America. For today you have what everybody wants and every American receives: an education.

Yes, you will get more education—perhaps formal, perhaps not. But already you have enough to use your own intelligence to help solve your own problems.

You can think for yourself. When things aren't going just your way, you can help to make them better in the classic American tradition.

You have learned that other people of other origins, beliefs, colors have a right to happiness too. And you know the rules of fair competition: to be a good sport—win or lose.

These are qualities that made America great. Today, more than ever, America needs good sense, tolerance and sportsmanship. They are yours to give.

Best wishes from
